

AVERAGE HUMAN

Gifted from Paul Solomon

1. Still carries Victim consciousness
-victim of the government, economy, weather, emotions, relationships
(obstacles & blame)
2. Works for and worries about money
3. Uses only a small percentage of his being – physical, emotional, mental & spiritual
4. Communication – he says what he thinks he ought to say
-what he thinks suits you to hear
-not necessarily the Truth
5. Believes he has a purpose in living – but doesn't know what it is.
6. Believes there is a better way.
7. Will die but is not prepared for death.
8. Waiting for the windfall.

POSSIBLE HUMAN

1. Has taken responsibility for creating his own reality
Knows he can co-create and change anything.
2. Knows his own value and his value is not affected by what others think of him.
3. He is skilled – physically, emotionally, mentally and spiritually.
His tools work for him, and he uses them.
4. Communication – based on Love and Trust, therefore the Truth is of paramount importance.
5. The world is now an exciting place – not threatening.
6. Is not a victim but a cause
Not living in indifference but in total creativity.

META HUMAN

Overcomes or goes beyond death.

Death – the absence of life

Therefore doesn't really exist

The Meta human undergoes a metamorphosis.

Meta – beyond, transcending

Morphosis – form

=go beyond death

1. A creature who incarnated in a form and has changed so drastically that the end result is totally unrecognizable
Caterpillar – butterfly
2. Goes beyond his DNA – A human
Breaks out of his DNA – who lives to his full potential and goes beyond.
3. He is not God – but knows & practices being what God is.
He doesn't become God – but certainly behaves like God.
4. Miracles surround him.
5. The fact that this person has lived has made a difference.
6. Responses to these people are interesting.
Eg Sai Baba
Some worship
Some don't believe
Others impressed with phenomena
Others become the expression of the teachings
Time to **be** as them! The great teachers.

Meta human –

Totally downstream

Complete

The oars are in the boat

No need to paddle

A journey of trust in self & God.

May be helpful to allow people to see that they have gone beyond average.

Simply stepping over average, transcending the average, claim the possible.

(Much as the adult looks back at the teenager)
